Read each sentence carefully to find out whether there is any error in any underlined part and indicate your response in the Answer Sheet against the corresponding letter i.e., (a) or (b) or (c). ## COMPREHENSION

**Directions:** In this section you have four short passages. After each passage, you will find some questions based on the passage. First, read a passage and answer the questions based on it. You are required to select your response based on the contents of the passage and opinion of the author only.

### PASSAGE—1

Nature has so designed us that we are compelled to spend at least eight hours out of twenty four with eyes shut in sleep or in an attempt to sleep. It is a compensatory arrangement, perhaps for the strain the visual faculty undergoes during our waking hours, owing to the glut of images impinging upon it from morning till night. One who seeks serenity should, I suppose, voluntarily restrict one's range of vision. For it is mostly through the eye that the mind is strained or disturbed. Man sees more than what is necessary or good for him. If one does not control one's vision, nature will do it for one sooner or later.

14. The main theme of the passage is
- (a) the need to sleep eight hours a day
  - (b) ways to reduce mental strain
  - (c) the connection between visual images and strain
  - (d) the necessity of controlling one's vision
15. One should voluntarily restrict one's range of vision
- (a) to seek calmness of mind
  - (b) to prolong life
  - (c) to enjoy nature
  - (d) to avoid seeing undesirable things
16. 'Glut of images impinging upon it' means
- (a) excess of images striking our eyes
  - (b) a series of bright images troubling our minds
  - (c) images making almost no impact on our eyes
  - (d) images weakening the visual faculty

### PASSAGE—2

At last the bomb was made. The site chosen for the test explosion was the desert region two hundred miles from Los Alamos. Ten seconds before Zero hour, a green flare warned the spectators to keep down. Then came the blinding flash. The whole area was suddenly brighter than the brightest daylight, and the bomb was a ball of fire. Then came the tremendous roar and the heavy pressure wave, which knocked down two men outside the control center. And then came the cloud—the mushroom cloud, all the colours of the rainbow, ironically beautiful, surging up to over 40,000 feet—over 10,000 feet higher than Everest.

17. Which of the following best helps to bring out the precise meaning of "Zero hour"?
- (a) twelve O'clock at night
  - (b) twelve O'clock in the middle of the day
  - (c) exact time at which operations are to begin
  - (d) time for spectators to keep quiet
18. The writer uses the phrase "ironically beautiful" to describe the mushroom cloud because
- (a) he knew that mushroom would not have the colour of rainbow
  - (b) he is aware of the sinister nature of the explosion that took place
  - (c) he believes that something that is higher than the Mt. Everest cannot be described as beautiful
  - (d) he wants to convey his sympathy for the two men who were knocked down
19. Which of the following statements would you consider to be correct?
- (a) The writer is delighted at the explosion
  - (b) The writer is detached in his observation
  - (c) The writer is conscious of the evil this particular event releases
  - (d) The writer is trying to give a dramatic account of the events.
20. The passage uses many words and phrases dealing with colour and light. This is because the writer wants to
- (a) suggest that the event took place at night
  - (b) convey to us his own sense of satisfaction
  - (c) indicate that humanity has achieved something really great
  - (d) make us see vividly the entire cycle of events

### PASSAGE—3

Every time I heard a noise outside that cold February night, I found myself at the kitchen window, peering out into the dark. May be it was one of them. Five men had escaped from the state prison, less than 40 kilometers north of us. The men were armed, desperate and dangerous. Their crimes ranged from robbery to rape and murder. The police thought a few of them were hiding in the low land in the south-west part of the state, right where we live.

The leaves rustled again. No, it was just the winter wind, or may be a rabbit or two.

“Nathan,” I said to my husband, “What would we do if those men came here?”

“Darling,” Nathan replied, “we’d do what they said.”

I didn’t like the idea at all—people hanging around outside my house. “Nathan, pull down that shade in the bathroom,” I said. We hadn’t done that for as long as I could remember. We didn’t have to, living so far out as we did. But tonight was different.

21. Nathan’s wife looked through the window because she was
  - (a) waiting for the convicts to enter her garden
  - (b) waiting for her husband and the children
  - (c) suffering from acute sleeplessness
  - (d) afraid that a convict was hiding in the trees
22. Nathan’s reply shows that he
  - (a) did not know who the five men were
  - (b) was sure that the men would not come to their house
  - (c) was not much worried about the prisoners
  - (d) did not know how dangerous the men were
23. Until now Nathan and his wife never pulled down the shade in the bathroom because
  - (a) they did not like a dark bathroom
  - (b) they were not advised by the police to do so
  - (c) they lived in a totally isolated and remote area
  - (d) they maintained friendly relations with their neighbours
24. Through this passage, the writer is mainly trying to convey the
  - (a) dangers of living near a prison
  - (b) the fear in the mind of a woman
  - (c) the threat that criminals pose to the society
  - (d) the ineffectiveness of the police force

### PASSAGE—4

Though a mediocre student, I took Science after passing the Matriculation Examination. My choice was not backed by any fascination or liking for the subject but was made simply to oblige my deceased father who had wanted me to go in for medicine. One of my friends also advised me to honour the wish of my father. I had an aptitude for the Arts. The result was that Wordsworth, Shelley and Keats were much better understood by me than Euclid, Newton and Dalton. In spite of my deficiency I was successful in passing the Intermediate Science Examination.

25. The author was a
  - (a) brilliant student
  - (b) dull student
  - (c) student neither bright nor dull
  - (d) laborious student
26. The author took science because
  - (a) he had a taste for science
  - (b) he had a peculiar fascination for the subject
  - (c) he had to honour his father’s wish
  - (d) he was forced by his friend
27. The author could appreciate
  - (a) Geometry
  - (b) Poetry
  - (c) Physics
  - (d) Chemistry
28. The author’s friend advised him to become a doctor because
  - (a) medicine is a lucrative profession
  - (b) he wanted his friend to act in accordance with his father’s wish
  - (c) he was afraid of the author’s father
  - (d) he was a hypochondriac and wanted a doctor for a friend

### SELECTING WORDS

**Directions:** In the following passage at certain points you are given a choice of three words marked (a), (b) and (c), one of which fits the meaning of the passage. Choose the best word out of the three. Mark the letter, viz., (a), (b) or (c), relating to this word on your Answer Sheet. Examples K and L have been solved for you.

K

The (a) boy was in the school in Simla.

(b) horse

(c) dog

L

(a) She was homesick.

(b) It

(c) He

**Explanation:** Out of the list given in item K, only, 'boy' is the correct answer because usually, a boy, and not a horse or a dog, attends school. So '(a)' is to be marked on the Answer Sheet for item K. A boy is usually referred to as 'he', so for item L, '(c)' is the correct answer. Notice that to solve the first item K you have to read the rest of the sentence and then see what fits best.
